

I am very concerned
that Sinclair
Broadcasting is
offering a
discredited movie in
place of news in the
days right before
the election.

As a conservative, I
am particularly
concerned about what
kind of precedent
this sets. Please
stop Sinclair from
forever changing the
nature of the
relationship between
news and propaganda
in America.

I think a formal
letter suggesting
that this is
possible grounds for
a license revoke
will send the right
message.

What kind of world
is it when a glimpse
of a bare breast is
considered to be a
worse infraction
than election
tampering?
